What started as a glass factory in Iittala, Finland, today celebrates generations of essential objects that are distinctive, combinable and multi-functional. Inspired by the progressive philosophy of our design heroes, such as Kaj Franck and Alvar Aalto, we bring quality, aesthetics and functionality to our work.

It's what we do, what we offer, what we believe in. And like all great stories, it is defined by colourful characters and thought-provoking ideas. Enjoy and be inspired.

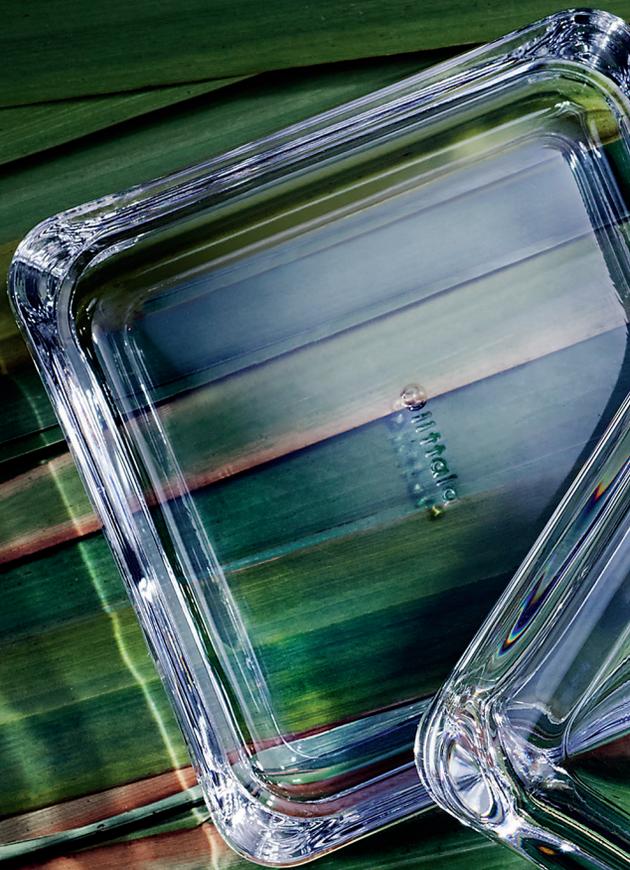

Interior

At Iittala, we take a different approach to design. We make objects for meaningful occasions. We also want you to experience enduring quality every day, in items that look beyond the latest trend.

Alvar Aalto Collection
Since 1936

The Aalto vase dates back to 1936 and was first presented at the Paris World Fair the following year. Its fluid, organic form is still mouth blown today at the Iittala factory. It takes a team of seven skilled craftsmen working as one to create one Aalto vase – an icon of modern design.

Ruutu
Ronan & Erwan Bouroullec
2015

Created by Ronan and Erwan Bouroullec, the Ruutu (which means "diamond" in Finnish) vase might be simple in shape but it takes the most skilled craftsmen in the glass factory to produce. The vases are mouth-blown into a steel mold and polished by hand. Each vase is a simplified masterpiece taking seven craftsmen and twenty-four hours to produce in the Iittala glass factory.

The fluidity and vibrant feel of the mouth-blown glass creates the delicate character of the Ruutu vase.

Ateenan Aamu
Kaj Franck 1953

Kaj Franck created Ateenan Aamu (Morning in Athens) after being inspired by the beauty of Greece. The sculpture is made of glass pendants and when moved by the wind, the delicate bubbles make a soft, melodic sound reminiscent of church bells ringing in Athens on a Sunday morning.

Lokerovati
Kaj Franck 1957

Besides being a beautiful interior element, the Lokerovati is extremely functional in use. It is perfect for table setting, serving and displaying beautiful home artifacts. Kaj Franck always encouraged people to use their imagination when using items he had designed.

Annual Cube
Oiva Toikka 2017

Since 1977, the Annual Cube has been an outstanding example of Iittala's glass-coloring expertise and the skill of its glass-blowers. Oiva Toikka uses the 'paperweight' technique to create private, microscopic worlds, each suspended in an internal space.

Birds by Toikka
Oiva Toikka 1972

Oiva Toikka's iconic collection of Iittala Birds by Toikka first took flight back in 1972. The collection embodies a rich fusion of glass-making traditions and would not have been possible without Toikka's hands-on-approach at the glassworks and his keen understanding of each employee's skills. Drawing from nature and his passion for art glass, Toikka has created more than 500 birds in the last forty years.

These lovely little creatures are individually mouth-blown making them a unique treasure in homes, offices or any other space where they nest.

Festivo
Timo Sarpaneva 1966

Timo Sarpaneva originally designed the Festivo candle holder as a wine glass for himself. His goal was to be able to fit an entire bottle of wine into a single glass. The result was a rough surfaced, ice-like glass with the bowl and base sections blown separately. One day when noticing the base sections sitting on their own in the factory, they were inspired to turn them into candle holders and so the prototype of a new classic was born.

Kastehelmi
Oiva Toikka 1964

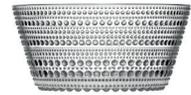

The Finnish name 'dewdrop' refers to the circles of bubbles in the pressed glass. Inspired by Finnish nature, the dewdrops glisten like a string of pearls on grass in the morning sun. Oiva Toikka's love for experimentation led to the creation of an entirely new droplet design for Kastehelmi. The resulting surface structure brings out the living, reflective beauty of the glass.
